

The Bouncer Instructions

INSERTING AND CHARGING THE RECHARGEABLE BATTERIES

1. We recommend fully charging the rechargeable batteries before you first use the unit. To do so, insert both 18650 4000mAh 3.7V li-ion batteries (included) into the stun gun according to the polarity diagram shown below. When you connect the charging cable to a wall outlet and the stun guns handle a Green light will illuminate on the charging plug. You need to power on the stun gun using the bottom green on/off button. This will change the Green light to be Red and begin the charging. When plugged into a standard wall outlet, a red light on the wall charger will come on while the batteries are charging and change to green when completely charged. **IMPORTANT:** Do not charge for more than 8 hours at a time. Overcharging can damage the batteries and void the warranty. If the flashlight becomes dim or if the electrical stun current becomes noticeably weaker, the batteries will need to be charged. When not in use, charge the batteries every 60 days to ensure the unit will function optimally when needed.
2. To insert the batteries into the stun baton, unscrew the end cap by turning it in a counterclockwise direction (See above diagram for location to unscrew).
3. Insert the batteries according to the polarity diagram below. **IMPORTANT:** Batteries must be inserted as shown below. Inserting the batteries incorrectly could damage the unit and void the warranty. Replace the end cap by turning in a clockwise direction until snug. Do not over tighten.

USING THE FLASHLIGHT

1. If the glass breaker is installed on the end of the baton. You will unscrew this to reveal the ON/OFF Push-Button Tail Switch.
2. Fully press the Push-Button Tail Switch. You will hear the button click and the LED will come on indicating that the power to the unit is on.
3. Slide the mode select switch to the top position to turn on the flashlight.
4. To turn off the light, Slide the mode select switch to the middle position to turn off the flashlight.

TESTING THE STUN BATON

(WARNING: Do not test fire the stun baton for more than 1 second as this will damage the unit and void the warranty.)

1. Fully press the Push-Button Tail Switch to turn on the unit.
2. Slide the mode select switch to the bottom position to activate the stun gun.
3. Press the Stun Gun Activation Button to test fire the unit. Do not hold the button down for more than 1 second. You will see and hear the electrical current fire across the top of the unit between the Electrodes.
4. Once your test is complete, fully press the Push-Button Tail Switch to turn the unit off.

USING THE STUN BATON IN SELF DEFENSE

1. Before using the stun baton in self-defense, we recommend you become familiar with how this unit operates so you can quickly protect yourself.
2. Touch your assailant's body with the contact probes and press the Stun Gun Activation Button.
3. Touching anywhere on the assailant's body will have an effect. However, the maximum effect is achieved in the areas shown to the right:
4. When touching the assailant's body, you will not see or hear the electrical current as you do when the unit is test fired. You can hold the Stun Activation Button down for more than 1 second, as this will not damage the unit, as it will when being test fired.
5. You do not have to be concerned about the effects of the charge being transferred to you. Even if the assailant touches you while being stunned, you will not feel the effects of the charge.

EFFECTS OF THE UNIT ON AN ASSAILANT

1. Touching an assailant for less than 1 second will cause minor muscle contractions and have a repelling effect.
2. Touching an assailant for 1 to 2 seconds will cause muscle spasms and a dazed mental state.
3. Touching an assailant for 3 to 5 seconds will cause loss of balance and muscle control, total mental confusion, and disorientation. All effects to the assailant are temporary; the stun baton can cause no permanent harm. **(NOTE: The device should not be used for longer than 5 seconds.)**

WARRANTY

Safety Technology extends a lifetime warranty to the **ST-BOUNCER** for the product against defects in materials or workmanship, with the following exceptions:

1. The warranty does not cover damage resulting from accident, misuse or abuse, lack of reasonable care, moisture, the affixing of any attachment not provided with the product, loss of parts, or recharging the unit in any manner not in accordance with the included instructions.
2. The warranty will be voided if the unit has been opened or tampered with in any way (unless by an authorized dealer) or if any unauthorized replacement parts have been used.
3. The lifetime warranty extends to the stun gun and flashlight only. The batteries and the battery charger have a one-year warranty.

NOTICE

Purchaser must check and abide by all local laws governing the possession and use of stun batons. In addition, the stun batons must only be used in a lawful manner for self-defense. NOTE: Not to be used on children, persons with heart disease, or any vital part of the human body. Not to be stored or used in environments where it is damp or humid or where there are extreme hot or cold temperatures. Do not use on metal objects.

CONDITIONS OF SALE

Purchase of this product is an agreement by the purchaser/user to hold all sellers and manufacturers harmless of all liabilities and damages.

TO OBTAIN SERVICE

Contact the Authorized Dealer from whom you purchased this unit for a Return Merchandise Authorization. The return unit must be sent postage prepaid and proof of purchase is required. Damage or loss occurring during shipment is not covered by this warranty.

Battery Charging and Storage

You need to keep the battery charged during storage. The battery must be charged every 3-4 months to keep the battery fresh and operational.
